Industry Structure and Development:

Non-Banking Financial Companies (NBFC) have rapidly emerged as an important segment of the Indian financial system. Moreover, NBFCs assume significance in the small business segment as they primarily cater to the credit requirements of the unorganized sector such as wholesale & retail traders, small-scale industries and small borrowers at the local level. NBFC is a heterogeneous group of financial institutions, performing a wide range of activities like hire-purchase finance, vehicle financing, equipment lease finance, personal loans, working capital loans, consumer loans, housing loans, loans against shares and investment, etc.

Segment wise performance:

The Company operates in single business segment i.e. NBFC, it has witnessed considerable growth in the last few years and is now being recognised as complementary to the banking sector due to implementation of innovative marketing strategies, introduction of tailor-made products, customer-oriented services, attractive rates of return on deposits and simplified procedures, etc.

While the functions of NBFCs are just like banks, there are few differences between both the institutions. These are: (i) NBFC cannot accept demand deposits; (ii) NBFC is not part of the payment and settlement system as well as it cannot issue cheques drawn on itself and (iii) deposit insurance facility of Deposit Insurance & Credit Guarantee Corporation is not available for NBFC depositors unlike in the case of banks.

Overview:

During the financial year under review the revenue from operations has decreased from Rs. 55.13 Lacs to Rs. 36.95 Lacs and there is no other income earned during the year.

Opportunities:

Within the NBFC space, various sub-segments have emerged more dominant than others. Mortgages, microfinance and unsecured loans appear to be driving growth. According to estimates, credit grew at a rapid 30 per cent plus (year-on-year) for mortgages and 80 per cent plus for microfinance as of December 2015. Housing finance companies have increased their share of the overall pie from 26 per cent in FY09 to 38 per cent in FY15. NBFCs also have a large share in niche segments, such as commercial vehicle finance, the share estimated to have increased from 42 per cent to 46 per cent in the last three years ending FY15.

Low retail penetration of financial services / products in India

Extensive distribution reach and strong brand recognition

Opening of financial sector in India along with introduction of innovative products

Opportunity to cross sell services

Increasing per-capita GDP

Changing demographic profile of the country in favour of the young

Threats:

Changes in the external environmental also may present threats to the industry i.e. Inflationary pressures, slowdown in policy making and reduction in household savings in financial products, Competition from local and multinational players, Execution risk, Regulatory changes, Attraction and retention of human capital are the major setbacks for NBFC's.

Outlook:

The Company is mainly engaged in the business of financing and investment in bodies corporate in order to yield greater revenue for its stakeholders. The Company is planning to expand and diversify the operational activities in the coming years ahead in order to tap higher revenues.

Risk and Concerns:

Due to stiff competitions in the finance field where the company's activities are centered in, the overall margins are always under pressure, but maintainable with the constant effort and good services rendered by the company.

Internal Control Systems and their Adequacy:

An Audit Committee of the Board of Directors of the Company has been constituted as per provisions of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Annexure B” to the Independent Auditor’s Report**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of PARNAMI CREDITS LIMITED (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
